**CORPORATE OVERVIEW**

Cazador provides turnkey federal and commercial solutions for Initial Outfitting, Transition Management and Furniture, Fixtures and Equipment (FF&E). We provide strategic and tactical transition plans, management oversight and execution to ensure that your next hospital or office build-out or relocation goes smoothly.

**Capabilities**

- **Initial Outfitting & Health Care Transition Management:** Cazador mitigates the risks inherent in healthcare transition projects by providing strategic and tactical hospital transition plans and detailed management oversight of inventory management and project schedules. We apply a rigorous methodology that includes: strategic relocation planning, operational planning and data gathering, procurement, pre-move coordination, transition/relocation implementation and project close-out.

- **Furniture, Fixtures & Equipment (FF&E):** Cazador saves the government significant time, money and energy by providing turnkey solutions for furniture, fixtures and equipment (FF&E) procurement. Similar to a general contractor, we offer a one-stop-shop for planning, design and installation of the products and services required for occupancy.

Experience

US Air Force Medical Support Agency (AFMSA)
Cazador was responsible for healthcare transition management and initial outfitting as part of AFMSA’s modernization of 14 military hospitals and clinics. Cazador’s scope of work for this $46 Million project:

- Resource Protection / Security Systems
- Information Technology
- Medical Equipment & Clinical Casegoods
- Furniture & Furnishings
- Room décor for medical facilities, including comprehensive interior designs
- Communication systems

To mitigate risk and ensure that each location was ready for first day occupancy patient care, Cazador provided AFMSA with a turnkey, performance based solution that included—project management, transition & relocation planning, design & technical support, procurement, selection, storage, installation, testing, training & warranty support.
